FARM BUREAU NEWS

OXFORD COUNTY SECOND IN STATE FOOD CONTEST

Women all over the State are talking, have been talking, and will keep on talking about "Square Meals for Health," the state-wide foods project carried by Farm Bureau organizations in Maine.

To promote the serving of well planned community meals was the object of the project. Each community serving eight approved community meals under certain other contest rules was awarded a certificate by the State Federation of Farm Bureaus. To the county who did the best job was awarded the State charter. Oxon County, by receiving 20 community certificates, won the State charter with Oxford a close second with 19 community charters.

Miss Evelyn Avery, State Foods Specialist, comments on the achievement of the county very highly. Out of only 21 organized communities in Oxford, 19 won certificates, or over 90 per cent of the communities where Farm Bureaus were organized. This happens to be the highest county percent in the state.

Another contest is on, for 1928 and Oxford County is in it. Already 17 communities have signed up for competition and others are expected to enter later. Those communities competing are: Andover, Bethel, Brownfield, Buckfield, Canton, Dixfield, East Bethel, East Fryeburg, Hiram, Mexico, No. Paris, Roxbury, So. Paris, Upton, Waterford Fryeburg and Woodstock.

GROVER HILL

This community was greatly saddened by the illness and death of H. M. Merrill, the popular mail carrier on Route 4. Clyde L. Whitman is substituting on the mail route at present.

We learn that H. M. Merrill was working in the mill at Bethel.

Messrs M. P. Tyler and E. A. Mundt are getting on finely hauling pulp to the river for Harry Lyon.

Frank Abbott has six young heifers which he and his son Alton Galt recently bought at Rumford Point.

Several in this community have been having severe colds which seem to be prevailing as usual at this season of the year.

GILEAD

Wilfred Shorter was a recent visitor in Portland.

Mrs. Alice Pendleton of Gorham, N. H., was a week end guest of friends in town.

Mrs. Lena Heath has completed her duties at the home of Mrs. H. I. Watson.

Mr. and Mrs. Olive Kimball of South Paris were guests of his sister, Mrs. John McBride last Sunday.

Mrs. Rose Swann and granddaughter, Myrtle Bateholder of Locke's Mills were guests of relatives in town Tuesday.

Mrs. Charles Cole has returned home from Strong after spending several days with her daughter, Mrs. Mona Potter.

E. B. Curtis went to South Paris, Monday where he will serve on the traverse jury at the Supreme Judicial Court.

Mr. and Mrs. Bert Bennett are to bring congratulations on the birth of a son born Sunday at the home of Mrs. Lucia Stearns in Norway.

Mrs. Mary Fildstad was a recent guest of relatives in Berlin.

SOUTH ALBANY

Mr. and Mrs. James Kimball spent the day at Preston Plant's Saturday.

Mr. Bernard Allen went to Bethel, Friday and had 18 teeth extracted.

Mrs. Sherman Allen and daughter are spending a few days at Howard Allen's.

Mr. and Mrs. James Kimball visited Mr. and Mrs. Andrew's Monday.

Mrs. Ella Stearns is helping Mrs. Bernard Allen for a few days.

Mrs. Arthur Brown returned to her home in Auburn Sunday.

Roy Wardwell is attending court at South Paris this week as juror.

Leo Lord carried Mrs. Bernard Allen to Bethel.

Sunday was a perfect winter day. Several gathered at the Albany chapel where Rev. W. I. Hall conducted the services.

Mrs. Alta Bird and daughter, Madeline were week end guests of Mr. and Mrs. W. I. Decker.

Leon Kimball has finished work for E. K. Rhedd.

Mrs. Anna Piske is very lame this winter.

Ray Wardwell was in North Water, Monday repairing telephone instruments.

W. A. Clough

County Chairman

W. A. Clough, prominent Rumford merchant and former president of the Rumford Business Men's Association, has been chosen to serve as Oxford County chairman of the State Chamber of Commerce, the Maine Publicity Bureau and the Maine division of the New England Council in their joint solicitation this year for funds with which to carry on their respective lines of statewide activities. H. W. J. Russell of Topshfield, Washington County, who is to have general charge of the joint budget campaign in the State, was in Rumford this week conferring with Chairman Clough and assisting him in organizing his local committees in various sections of the county.

SOUTH PARIS

Miss Emily Bissell, well known as the originator of the Red Cross stamps was a recent dinner guest of Miss Carrie Hall. Miss Bissell, now of Washington, D. C., had a summer home at Paris Hill.

Richard Brown, Jr. of Shelburne Falls, Mass., spent the week-end with his aunt, Mrs. Mary Emery.

South Paris High school is one of 37 Maine schools entered in the National Oratorical contest, which is being sponsored by the Portland Press-Herald.

The contest is one of elimination, by schools, districts and the state. The state winner will compete with six other state winners at Troy, N. Y., in May, and the winner there will be given a free trip to Europe.

Quite a number of townspeople attended the Gould vs. South Paris basketball game at Bethel Saturday night.

Captain Arthur Pratt of East Orange, N. J., has been visiting Mr. and Mrs. James Owsell a few days.

Mrs. George Robertson was a recent guest of Miss Mabel Ricker at West Paris.

Dr. W. B. Raymond and family are settled in their new home on Harrows St.

Mrs. Lucia Mason has returned from her trip to Boston and New York.

Earl Bryant of Gould Academy spent the week end with his parents, Rev. and Mrs. O. E. Bryant.

The community was shocked Sunday to hear of the death of E. H. Mosher, Pine Street.

Mrs. Mosher committed suicide by hanging in the basement of his home. He had been in poor health and very dependent since having the flu a few weeks ago. He is survived by his widow, a daughter, Hazel, and son, Edward.

MOUNTAIN VIEW GRANGE

Mountain View Grange held its regular meeting last Thursday evening with worthy Master Angus Fraser in the chair. All officers were present except Flora, Treasurer and L. A. Stew.

After the usual reading of business the third and fourth degrees were conferred upon two candidates.

Literary program: Reading, Mrs. Briggs; reading, Margaret Emery; song, Mrs. H. Curtis; singing, C. H. Vales song, Arango.

Refreshments of coffee, sandwiches, cake and candies were served. There were 18 members present and four visitors. The next meeting will be Feb. 24.

Resolutions

Whereas it has been the will of our Heavenly Father above to remove from our midst our beloved brother, Harry Staples;

Resolved, that we the members of this River Grange, extend our heartfelt sympathy to the bereaved family, remembering that what is our loss is his gain.

Resolved, that a copy of these resolutions be spread upon our records, a copy sent to the Oxford County Citizen to be printed therein, and a copy sent to the family of our late brother as a token of our sympathy.

Signed: E. E. Bennett, Gwendolyn Godwin, E. L. Hall.

Gould Academy Notes

The entertainment which was given by the dormitory boys last Thursday night was very successful, netting about \$22. Following is the program in full:

Clown Act and Gymnastic Exhibition—Conch Kennedy, assisted by Earle Bryant, John Adams, and Addison Saunders.

Sketch, "Crossed Wires"—Albert Bean, Homer Gregory, John Fox, James Alger, and Carleton Holmes.

Sketch—John Fox, and Charles Burnham.

Sketch, "Waiting for the Train"—Earle Bryant, John Adams, and Billy Myers.

Dormitory Scene—Holden Hall Serenaders.

The program was followed by a dance, with music by Lord's orchestra.

Miss Emily Way was a week-end guest of Miss Gertrude French, at the latter's home in Milan.

Earle Bryant spent the week-end in Portland.

The preliminary debates in the Bates Debating League will be held March 18. This year, the Gould affirmative team will debate South Paris, at Bethel, while the negative team meets Norway at Norway.

Plans are practically completed for the finest carnival ever held at Bethel. The date is February 22. A large number of the students, including the members of Gould's winter sports teams, will compete. Let's all get behind this carnival (not too far behind it) and make it a big success.

NORWAY H. S. Friday

The Norway H. S. basketball teams, both girls and boys, will meet the Gould teams on the local court this Friday evening the 17th. In the preliminary game the Freshmen will play the Grammar school in the second game of their series.

GOULD 21—SO. PARIS 32

One of the largest crowds ever present in William Bingham Gymnasium gathered to see the South Paris-Gould games and the Rumford-Gould Second game last Friday evening. The games were close and exciting but both the Gould Boys and Girls were overwhelmed by the South Paris teams. The Second Team came out with victory, York starting for the Second Team and Darius for Rumford.

JUNIORS 10—SOPHOMORES 18

With a five-point handicap the Sophomores won over the Juniors last Friday night. The game was very interesting and the score was close at all times. Parsons starred for the Sophomores and Staples for the Juniors.

SENIORS 20—FRESH 22

The upper classmen were uprooted by the Freshmen who came out on top with the score of 23-20. The Seniors struggled in vain to overcome the 15 point handicap and occasional scoring. Hamlin and W. Bartlett played nice games for the Fresh.

Mr. and Mrs. William C. Doyle of Bangor are rooming at Ralph Young's. Mr. Doyle is employed as linotype operator at the Citizen office.

House Burned

At North Newry

About two o'clock, Monday P. M. smoke was noticed coming from the chimney of Frank Douglass' house in Newry. The house was unoccupied, but Mr. Douglass goes there quite often from his home in Grafton after hay, so no alarm was felt as it was thought he must be there. At about three the house was completely burned inside and began to fall.

G. H. Learned with what help he could summons succeeded in saving the barn which is full of hay. The cause of the fire seems an entire mystery. There was no insurance.

CHURCH ACTIVITIES

UNIVERSALIST CHURCH

Sunday School will be held at 9:30 A. M.

CHRISTIAN SCIENCE SOCIETY

Chapman Street. Services Sunday morning at 10:45. Subject of the lesson sermon, Mind. Sunday School at 10 o'clock. Wednesday testimonial meeting at 7:30 P. M.

METHODIST CHURCH

Church School meets 9:45 A. M. The tenth letter of the Alphabet will help you to remember the main topics of our sermon Sunday morning 10:45. There will be four main topics, each beginning with the above letter. Epworth League 8:30 P. M. Topic, Writing Our Own "In His Steps." Lake 9:57. Leader, John Anderson.

The special feature for our Sunday evening service will be a large choir of young people. Come and join us in this service of praise to the King. Short sermon, "The Call of the Open." Class meeting Tuesday evening 7:30. We will consider the 10th chapter of John, "The Door Chapter."

CONGREGATIONAL CHURCH

L. A. Edwards, Pastor. Sunday, Feb. 19th, 1928. 10:45. Morning Worship. The pastor will present the seventh of the series on the Character of Jesus. The subject being, "His Optimism."

There is an issue Optimism, there is also a sane Optimism.

The man who falling from a ten story building shouted to his friends as he passed the fifth story "everything is all right so far" had little regard for the inevitable.

Jesus lived amid conditions that to the average man would have been most depressing, but in spite of all he lived the triumphant life. His heartening challenge to His disciples then and now, was and is, "Be of good cheer."

At this service we shall have special music; but the music that the congregation contributes is, for them the most important. We urge you to make the singing of the Hymns a real act of worship.

The church school is growing in numbers and interest. We hope that you can plan to meet with us at 12 o'clock next Sunday. Miss Ida Packard is Superintendent.

Comrades of the Way meets at seven o'clock. Leader, Mr. Brainer.

There will be no meeting of the Ladies Club this week, it being omitted that the members may have the privilege of hearing Mr. Bingham who addresses the mothers and teachers at the Grammar School Building, on Thursday.

Washington Letter
Shows His Interest
in His Genealogy

**Writing to His Nephew, He
Reveals Knowledge of
Family's Founder
in America.**

A letter bearing the signature of George Washington, addressed to his nephew, William Augustine Washington, is in the possession of Barnet J. Boyer of New York. It is dated October 3, 1798, and is said to be the only letter extant in which George Washington makes any inquiries to his own ancestry, or gives his personal views on the subject, and it is, therefore, considered to be a unique document.

Written in his fine calligraphy on paper softly mellowed by age, it is a valuable historical document, showing Washington in yet another light. This letter is, apparently, not the first time Washington made such inquiries into his family tree, as may be judged by the opening sentence in

In the rose garden at Sulgrave Manor. The sundial dates back to 1539, the time of Lawrence Washington.

which he thanks his nephew for the old documents sent him regarding the subject, which it may be assumed he asked for. The letter is, however, so far as it is at present known, the only one dealing specifically with this matter.

Reference to Ancestors.
It opens with other topics such as suggested alterations in a contract for the purchase of 500 barrels of corn in which General Lee also is interested, and it is on the fourth page of the manuscript that he refers to his ancestors. The following is a transcript:

"I thank you for the old documents you sent me, respecting the family of our Ancestors, but I am possessed of papers which prove beyond a doubt, that of the two brothers who first came to this country in the year 1637, during the troubles of that day, that John Washington, from whom we are descended, was the eldest. The pedigree from him I have, and I believe very correct, but the descent sets of Lawrence. In a regular course, I have not been able to trace. All those of our name, in and about Chatham, are from the latter. John was the grandfather of my father and Uncle, and Great Grandfather to Warren and me. He left two sons, Lawrence & John; the former, who was the eldest, was the father of my father, and a son of John. Mrs. Hayward must have been a daughter of the first Lawrence, & therefore became the wife of the second Lawrence & John.

"We all write in best wishes for your family, and I am your sincere friend and affectionate uncle
"George Washington."

Washington's Coat of Arms.
There have been many endeavors made to trace Washington's English ancestry, and the name recurs in various parts of the country. A hereditary visitation of the county of Northampton was made in the latter part of the sixteenth century, which gives the genealogical table of the Washingtons of Sulgrave. It is interesting to note that the coat of arms of the family, though differing in the different branches of it, yet contains in most of them the heraldic emblems of stars and bars below them. It is a universal belief, of course, that the Washington coat of arms is the basis and inspiration of the national flag of the Stars and Stripes.

No Record of Lawrence.
The ancestor to which Washington refers is John Washington, who came to Virginia in 1657 and was the great grandfather of George, while he was himself the son of Mr. Lawrence Washington, the rector of Partridge. John was forced to leave home on account of poverty, and in his twenty-sixth year appeared in Virginia. Of the Lawrence to whom Washington also refers there seems no record.

This letter of Washington's seems to fill up a gap, though it does not throw any light upon his ancestry. It is George Washington himself who stands out as an illustrious figure from a family of rather ordinary and undistinguished people.

It is rather a modern fashion to deride the heroes of another age, and a certain enjoyment is manifested in finding that any accepted hero has feet of clay. Thus Washington also has his detractors like other great men, and it is said that the cannot-tell-tale and other rather ridiculous fables have been traced to a "drunken piece of fiction" of a learned gentleman.

From the same source ("George Washington," by W. E. Woodward) we learn the Washington letters were unfortunately collected by an enthusiast who suppressed some and "edited" others, greatly detracting from their interest and value. An original letter of this kind, therefore, giving special details of interest in his own genealogy, becomes a historic and valuable document.

These old, fragile "scraps of paper" are in some cases almost priceless, for in latter years collectors have been willing to pay almost any price for them. Of such delicacy are some that they are kept behind glass or in leather folders, and are as heavily insured as the most rare of precious stones.

How some of the most secret and private documents ever fall into strange hands at will remains a mystery. Some are, of course, stolen; others are appropriated by servants or secretaries and in time fall into the collector's hands and under the hammer, where their precious secrets, no longer, perhaps, of vital importance to a world that has changed, become public and much discussed property.

HOUSE OF "WASHINGTON"
DATES FROM YEAR 1183
Information leading to the belief that the early ancestors of George Washington were named Washington has been uncovered by Prof. Albert Russell Hart, historian of the commonwealth charged with handling the continental celebration in 1932 in honor of the first President's birth.

Washington would be considered at a meeting of the commission's executive committee.

Professor Hart made his discovery. Senator Fess said, while making researches in England into the genealogy of the Washington family. More than fifty places were visited, the professor tracing the lineage through sixteen generations.

It was learned, the senator added, that in 1183, William de Herburn bought land in Westington and took that place for his name. Professor Hart is of the belief, the Ohioan declared, that this was the source of the Washington family name.

FEW TOURISTS FAIL TO VISIT SULGRAVE MANOR
The small village of Sulgrave in the English midlands possesses no striking features, yet in the last few years it has become the goal of many pilgrimages and the object of many excursions. People now visit it by thousands, for here stands the ancestral home of the Washington family.

Lawrence Washington built the manor house toward the middle of the sixteenth century. In the first half of

One Wing of Sulgrave Manor.

The nineteenth century an American writer visiting England made his way to the village. In one of his books he gave a brief description of the old house:

"It was a quiet, rural neighborhood where the farmhouses were quaint and antiquated. A part only of the manor remained and was in colored glass. The Washington crest in colored glass was to be seen in a window of what was now the buttery. A window on which the whole family arms was emblazoned had been removed."

The house was purchased by a British colonist and a plan of restoration was carried out. Decay has been arrested, faded additions removed, old craftsmanship and old beauties revealed. The fragment of the ancient dwelling is itself again.

The house at Bridge Creek, near the Potomac river, where George Washington was born, is gone. Not a trace of it remains. But the house at Sulgrave in Northamptonshire, where his English ancestors lived, stands and has become famous.

The photograph accompanying this article was taken by a party of visitors to Sulgrave manor last summer.

Community Building

Laying Out of Lawn to Best Advantage

The painting scheme should avoid the hit-or-miss scattering, which gives poor effect for the various plants and cuts into the sense of distance, which is desirable for the lawn. A few clumps of bushes at the sides and corners of the lot, a border, perhaps, along the walk, a tall evergreen or two near the entrance door and a line of flowers near the foundation are always safe and tasteful arrangements which can rarely be bettered by any radical plan.

Useful and ornamental lawn furniture and bric-a-brac can frequently be used to good advantage. Care should be taken in placement of the garage and the garden to make a correct ensemble in which each feature of the grounds finds its own proper place.

Nor does this careful assembling of the components of a skillful grounds plan, in which every feature harmoniously contributes to the whole, cost necessarily any more than a less artistic layout. The added cost of the shrubs, as well as the fee of the landscape architect, if it is decided to employ one, will be amply offset in the added values resulting.

The resale value of the home made attractive by a well thought out grounds plan will be materially increased.

Village Ideal Place for Large Factories

"Balancing" of agriculture and industry by establishing future industrial centers in rural communities instead of in densely populated areas would go a long way toward solving the farmers' problem, according to T. R. Preston, president of the American Bankers' association.

Mr. Preston declared bringing industry to small villages increases the market for agricultural products, gives employment to surplus labor, elevates the standards of living, increases public revenue, reduces taxes and vastly increases educational facilities.

He declared industry and agriculture are better balanced in Ohio, North Carolina and Pennsylvania than in any other states of the Union and asserted, "in these states there is no serious agricultural problem and we hear little complaint from the farmers."

"I would not suggest that manufacturing institutions move from the cities to the small villages," Mr. Preston continued, "but I do think it would be better for this country for future industries to be placed in these small villages rather than to be further congested in the great centers."

Consider Resale

Have you ever thought of fashion in connection with home building? The fashions do change in buildings just as in clothes, although not so rapidly perhaps.

Fashions change in furniture, in plumbing and lighting fixtures of the home; fashions change in automobiles; and in fact in almost everything that we buy.

With rare exception, every man who builds a home should consider the resale value of the property.

There are many factors which may make it necessary for him to sell. With interest in mind, or with protection of investment in mind, it would be unwise to build a house that was not in fashion.

The fashion in homes today is swiftly turning toward the permanent type.

Fire Hazards

Fire prevention is not a matter of one week out of fifty-two. It is a constant problem that is with us, asleep and awake, all hours of every day. We can afford to sacrifice half a billion a year on money, because of America's wealth; even though the existence of such wealth does warrant the people in throwing it away. We cannot afford to sacrifice human life or to permit, every year, a veritable army of our citizens to be injured and many handicapped for life.

There are many questions, economic, political, moral and what not, before the American people. There is probably none that comes nearer to every one of more than 100,000,000 citizens than the fire hazard.

Tree Grows Rapidly

The red pine, also called Norway pine, is one of the most important pine trees native to North America. It is found from Nova Scotia south in central Pennsylvania and west to Michigan and Minnesota, says the American Tree association. The red pine has few enemies, grows rapidly, and it gives care and protection will produce large quantities of high-quality wood. It is one of our most attractive and useful evergreen trees.

Consider Color Scheme

Next in importance to painting is the use of the right kind of paint and paint of the right color. Color intrigues our interest. It draws us toward or repels us from a house. It is either inactive. It is always working for or against our interests. So the color scheme should be decided upon most carefully. And let us not think we can avoid all pitfalls by painting in all-white, regardless of the type of house.

WOMEN OF MIDDLE AGE

Praise Lydia E. Pinkham's Vegetable Compound

Mrs. Annie Kwinski of 526 1st Avenue, Milwaukee, Wis., writes that she became so weak and run-down that she was not able to do her housework. She saw the name Lydia E. Pinkham's Vegetable Compound in the paper and said to her husband, "I will try that medicine and see if it will help me." She says she took all bottles and is feeling much better.

Mrs. Mattie Adams, who lives in Downing Street, Brewton, Ala., writes as follows: "A friend recommended Lydia E. Pinkham's Vegetable Compound and since taking it I feel like a different woman."

With her children grown up, the middle-aged woman finds that there are things she never had time to do before—read the new books, see the new plays, enjoy her grand-children, take an active part in church and civic affairs. Far from being run down by the younger set, she finds a full, rich life of her own. That is, if her health is good.

Thousands of women past fifty, say they owe their vigor and health to Lydia E. Pinkham's Vegetable Compound, and are recommending it to their friends and neighbors.

GOLD MEDAL HAARLEM OIL CAPSULES

Woman's Amazing Message to Rheumatics

After suffering intense agony for many years, I have written to tell you what your wonderful CAMPHOR OIL has done for me. For many years I suffered the tortures of rheumatism as only those who have it know. The sharp pains were so severe, I could not sleep. I tried to take another capsule and found it was a waste of time. I only let me know I could not stand any more.

For a point in my right shoulder was so sore and inflamed, it pained me so that when I touched it I could not stand. I thought I would take another capsule and found it was a waste of time. I only let me know I could not stand any more.

Being your advertisement in a paper I thought I would try it. I am now well and happy and have no more pain. I will never forget the day I took a change in CAMPHOR OIL. After all this time I am still feeling it. I feel as if I could not stand any more.

Are You Really Well?

To Be Fit There Must Be Proper Kidney Action.

DO you find yourself running down—always tired, nervous and depressed? Are you stiff and achy, subject to nagging backache, drowsy headaches and dizzy spells? Are kidney secretions scanty and burning in passage? Too often this indicates sluggish kidneys and shouldn't be neglected.

Doan's Pills, a stimulant diuretic, increase the secretion of the kidneys and thus aid in the elimination of waste impurities. Doan's are endorsed everywhere. Ask your neighbor!

The POLICY of PROGRESS

A STATEMENT
by
GENERAL MOTORS

IT is the policy of General Motors to maintain continuous improvement, in every one of its car divisions, with no interruption in production.

This means that you enjoy the benefits of new engineering developments promptly—just as soon as they have been thoroughly tested on the 1245-acre Proving Ground.

It means that you can now order the new Chevrolet, Pontiac, Oldsmobile, Oakland, Buick, LaSalle, Cadillac, or GMC Truck, and receive immediate delivery.

Behind this policy of continuous improvement is an organization so widespread and resourceful that it can make and sell quality automobiles more economically than any automobile manufacturer in the world.

In the north and south it logs and mills its own lumber. In the east it makes its own ball bearings and radiators. In the middle west it produces its own plate glass. Its plants are busy in 33 important American cities.

From almost 5,000 suppliers, its materials are obtained—steel by the hundreds of thousands of tons—wire by the tens of thousands of miles—upholstery by the acre—nuts, bolts and washers by the millions. Its sales and service take place through 33,000 dealers. More than 275,000 families look directly to General Motors for their livelihood—almost a million and a half men, women and children in every community in the land.

Meaning so much to so many, General Motors has felt a supreme obligation to look ahead.

Are there methods by which General Motors cars can be better built to better serve?

Are there new ideas which can increase the utility and pleasure and safety of motoring?

Are there new materials which can add to owner satisfaction?

Such are the questions that all General Motors engineers have always asked. The answers have made it possible, year after year, to offer an increasing measure of beauty in design, modern performance, riding comfort and distinct style. Thus in every price class, from Cadillac to Chevrolet, purchasers are constantly benefiting from the General Motors policy of progress.

CHAPTER X—Continued

Hand helped with the Christmas party plans. On little white cards, say with candles and holly, they printed the invitation.

Autumn's Christmas Party at the Lone Pine Christmas Eve Five O'clock.

Just one week before Christmas, the bad boys waded through the snow all over the Evergreen end of the island, and delivered the invitations, one to every house. It could not have been more than ten minutes after she received the announcement that Alice Andover was to be seen smiling grandly up the hill, a sort of full-blown smile in her advance. Gay sat her beneath the pine.

"Now don't blame me. I hadn't a thing in the world to do with it. I only lent her the cottage as she asked. She did everything herself. She sold everything she owns to pay for it, and it isn't going to cost you a cent. She has gone without jelly, gone without butter, gone without cake, gone without sugar—it's her party, and none of our business, if you ask me."

Alice Andover sank weakly into a chair. "I wish I knew it. That's all I can say. That's all I can say. That's all I can say."

"Oh, please come! She'll be so disappointed if you don't come. She wants you to see how cleverly she has managed."

"Oh, I'll come. And since she's got the unmitigated audacity to have a Christmas party in spite of my orders, I'll send my presents as usual. Oh, I always give little things—people been here for years—all in the family, you know, and I belong to the administrator. So you can tell the foolish old woman I'll send my presents as usual. I've never missed one of Autumn's parties yet, not since that first devil-scurd one fifty years ago when—"

"Oh, don't. She—she thinks maybe he is the Unknown Soldier at Washington, she—"

Alice Andover stared. She opened her mouth, closed it with great firmness and blinked hard at times.

"Unknown Soldier! Good heavens. What next? Then she added humorously, with a bright glint in her gray eyes, 'Well, whatever he is, thank God, it is unknown. That's all I've got to say for Buddy Bridges—Unknown Soldier!'"

The next day Hand climbed the rail line and along it with Christmas lights from terminal point to lowest branches, round and round, a hundred little colored bulbs, and connected them to a switch beside the window where Autumn's could turn it on before the party. Autumn's was enchanted with the idea of wiring the tall pine; she had not dreamed of such royal welcome to her Christmas guests. For days before the party she talked of little else.

It was only three days before Christmas, the twenty-second of December.

"Oh, there's no danger, Gay, not a bit of it. I'll be careful, I promise you. Just a little weather eye out for squalls. No, I am going to Boston. I have gone to Boston. Get that in your mind, and stick to it. I shan't be able to write you, and I may not be home for several days. Just wait for me, and don't worry."

But Gay did worry, worried heartily. But she would not go to Autumn's. Hand might come, and she wished to be there, waiting for him where he left her. He might need her—she shot in the night, a scream of terror—Gay set her small stock head determinedly. Nothing, nothing in the world should keep her from going to him in answer if he called for help.

She was glad for the excitement of the Christmas preparations to occupy her hands, if not her thoughts, through the dreary days that intervened.

It never occurred to her that he would not be back by the twenty-fourth of December for the party on Christmas eve. But the morning passed, and he did not come. Gay had no heart for the laughter, the roving excitement of the island lovers, the dashed joyousness of Autumn's. Hand did not come. It would be Christmas eve, her Christmas eve, and Hand did not come.

At three o'clock Gay took Autumn's by the hand and led her down to the Apple Tree, where she put her body to bed, tucking the blankets about her and begging her to take a good night's rest.

So it could have been but very little after three when the softly closed door of the Apple Tree behind her and set her feet in the path through the snow to the top of the hill. And standing up, ahead of her in the path, saw a man walking toward the cottage. Gay almost called out to him, expecting Hand, because she wanted Hand. But before sound left her lips she noticed the man. For she saw that it was a stranger, one who seemed to make his way wistfully in the face of the dark wind from the sea, staggering a little.

"Oh, you think I am chaffing. But I mean it. I—Miss Delane, tell me. If I should sell out—all my interests—my business connections—would you—marry me? Would you even think of it? I know it is too soon for you to know— But would you let me come where you are, let me see you, try to make you love me— Is there any chance for me at all? I would have some money. I could take care of you. We could go any place—West, or to Europe, anywhere."

There was no doubting the sincerity of his words, the eagerness of his desire.

"Don't," Gay said gently. "You will spoil our pleasant friendship, and I have liked it. It is because you have been away, you have been lonely, perhaps worried. It isn't really I you want. Why, you don't even know me. It is just—woman, companionship, sympathy, soft things. That is all."

But he shook his head, clung to her hands. "Gay, it is you. Nothing else. Nobody else. You. From the moment I saw you down in the cave— Oh, I know you don't love me now—but couldn't you? If I get things all straightened out, and—do something else— Gay, isn't there a chance?"

From somewhere down the line sounded the low wail of a car.

Hand listened a moment, but still clung to her hand. "Gay, don't say no. Don't say anything. Just wait, think of me a little, and as soon as I can—I will come again. But try to think of me—if not with love—at least with a little tenderness."

Quickly he lifted her hands, palms upward, kissed them passionately, one after the other, crushed them to his face and went away.

Gay sank into the big chair and buried her face in her arms. A criminal! That artless, boyish, ingenious man, with the pleading voice and the eager eyes? But even a criminal deserves some kindness of thought from the woman in whom he gives his love. Gay was very kind.

The next day, very early, Hand appeared at her door, dressed roughly for outdoor winter weather in heavy oilskin coat and breeches. He was hurried in manner, preoccupied. He told Gay he was obliged to run down to Boston for a few days on business.

"Now you sit tight while I'm gone, and I'm going through with it. I've told the folks I'm looking for a job, and they won't expect me home until they see me. You just wait here. Say nothing to anyone. Do nothing. Don't set your foot in those woods under any circumstances. And at night, Gay, please, to please me, go down and stay with Autumn's. And don't worry, for I shan't be in any danger."

"You are not going to Boston," she said bitterly. "You are going into those woods, to lie under the pine trees and watch the elphinstone, and try to catch those murderers. They'll catch you, first, Hand, don't, please don't. What business is it of ours if they break the law? What are their affairs to us? Why should you risk your life?"

"Oh, there's no danger, Gay, not a bit of it. I'll be careful, I promise you. Just a little weather eye out for squalls. No, I am going to Boston. I have gone to Boston. Get that in your mind, and stick to it. I shan't be able to write you, and I may not be home for several days. Just wait for me, and don't worry."

But Gay did worry, worried heartily. But she would not go to Autumn's. Hand might come, and she wished to be there, waiting for him where he left her. He might need her—she shot in the night, a scream of terror—Gay set her small stock head determinedly. Nothing, nothing in the world should keep her from going to him in answer if he called for help.

She was glad for the excitement of the Christmas preparations to occupy her hands, if not her thoughts, through the dreary days that intervened.

It never occurred to her that he would not be back by the twenty-fourth of December for the party on Christmas eve. But the morning passed, and he did not come. Gay had no heart for the laughter, the roving excitement of the island lovers, the dashed joyousness of Autumn's. Hand did not come. It would be Christmas eve, her Christmas eve, and Hand did not come.

At three o'clock Gay took Autumn's by the hand and led her down to the Apple Tree, where she put her body to bed, tucking the blankets about her and begging her to take a good night's rest.

So it could have been but very little after three when the softly closed door of the Apple Tree behind her and set her feet in the path through the snow to the top of the hill. And standing up, ahead of her in the path, saw a man walking toward the cottage. Gay almost called out to him, expecting Hand, because she wanted Hand. But before sound left her lips she noticed the man. For she saw that it was a stranger, one who seemed to make his way wistfully in the face of the dark wind from the sea, staggering a little.

"We'll just roll him over in the corner out of the way," she said briskly, and cover him up with the rug, and let him sleep. It was. We'll lock the door, and keep him here till it is over."

"Will he stay drunk all night?" Gay asked. "Shouldn't we give him something?"

"Whisky! I wish we had some whisky. If we had time—maybe we could keep him drunk for a week. I don't know just how long it does last, but I know the party lasts all night. He may sleep it off."

"I have a little cognac. Brought it in myself—from Paris—in the top of my dancing slipper. Real stuff," Gay said proudly. "I was keeping it for a wedding, but he can have that."

"Good! We'll give him a big—swig—of it." She brought out the nautilus term with a nautilus swing.

Neither man nor woman answered. So Gay went to him timidly and bent over him that she might see his face. His eyes were closed, his lips hard set. She tried to raise him, but his head fell limply from her hands.

She shrank away from him, shuddering with fear.

CHAPTER XI

The crisp voice of Alice Andover had never sounded so sweet to Gay's ears as at that moment.

"Gay Delane! Where are you? I saw you take that foolish creature home, so I came to see if I could—What is the matter?"

Gay beckoned to her sternly from the top of the stairs. "Come up," she said, and her voice was hollow. "Come up."

Alice Andover was never one to hesitate in a crisis. She came at once, breathing hard. Gay pointed dramatically to the bedroom.

Alice Andover gave one wide-eyed glance and saw the prostrate form.

"Good heavens, oh, good heavens! Where did he come from—where did you get him?"

"He came up the hill just ahead of me. Walked right in. Came upstairs, and evidently fell down there. Or lay down. There he is."

Alice Andover crossed the room and stood above him, touching the inert body tentatively with the toe of her shoe.

"Drunk," she said disgustedly. "Dead drunk."

Gay breathed more freely. In some relief. "Oh, is that it?—I was afraid of—of terrible things!"

At that moment, spasmodically he moved, and his face rolled back into the light.

"Oh, oh!" Alice Andover's explanation was a startled gasp. "Oh, my God, I believe— Oh, poor Almyr. I believe it is Buddy Bridges. Come home to his poor trusting mother—dead drunk. Oh, it is all my fault. Oh, what in the world have I done? Buddy Bridges—poor Almyr. All my fault."

"Buddy Bridges? Oh, really? Oh, Autumn's—how happy—"

Then came sickening realization of the pain it would be to the little old woman to have him come home to her like this, dead drunk. Better a thousand times for her to live on in her trusting ignorance, fondly believing him an unknown hero, pure and free. "Oh, poor Autumn's! See here, Mrs. Andover, this drunken creature shall not spoil the poor dear's Christmas party. The way she has saved, and saved, and starved herself— He shan't let her have one happy night—it may be her last, since Buddy came home like this. He shan't spoil it. Not if I have to poison him."

Alice Andover, trained to efficiency by years of hard administering, suddenly became practical and decided. Being in charge of things always aroused her latent cleverness.

Flint Axes of Stone Age Found in Sweden

The 4,200-year-old stock-in-trade of a Stone Age peddler in flint axes has been found by some workmen in a gravel pit in the Swedish province of Boendermanland. The peddler's board consisted of a number of light gray flint axes of exquisite shape and workmanship, evidently hidden in the ground by the trader, who seems to have wandered a long way from the south of Sweden to barter his axes for the precious furs of the hunters of the Boendermanland forest. The poor peddler seems to have met his death, for he never returned for his axes that now are said to be the best find of his kind ever made in that part of Sweden.

When he reached the piazza of the Lone Pine, he did not wait to knock, but opened the door slowly and went in, closing it after him. Gay was but a little way behind, and she ran in breathlessly, but stopped short in surprise when she did not find him in the living room nor the kitchen.

"Hello," she called. "Hello! Anybody up there?" But received no answer.

Frightened by the unnatural silence, and mindful of Hand's words of warning, she went to the desk, slipped her pistol deftly into the pocket of her heavy coat, and then she climbed the stairs, watchful and alert.

And there indeed she found him, lying face downward on the soft rug of her bedroom floor.

"What are you doing?" she demanded footingly. "What do you want?"

Neither man nor woman answered. So Gay went to him timidly and bent over him that she might see his face. His eyes were closed, his lips hard set. She tried to raise him, but his head fell limply from her hands.

Easy to Please

Mr. Merryweather had bought a new pair of shoes through the post. When they arrived he was entertaining a bachelor friend.

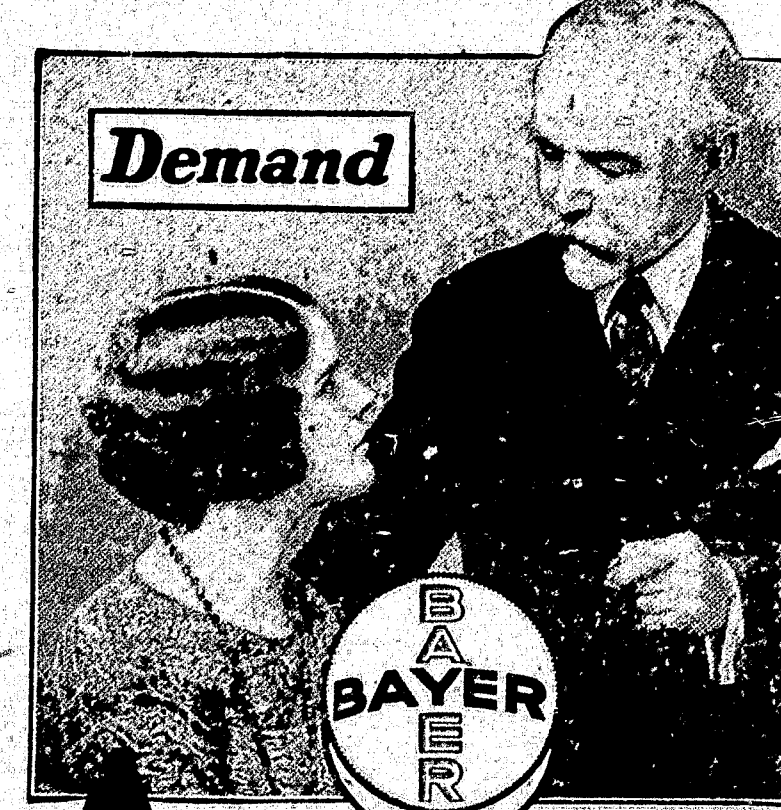

"You won't mind if I try them on now?" he asked his visitor, and proceeded to undo the parcel.

He slipped his foot into one of the shoes, only to withdraw it with a howl of pain. There was a large nail sticking up in the heel.

"You'll send them back at once, of course?" said the visitor.

"No," replied Merryweather. "I don't think so. The nail was probably put there to keep one's foot from sliding forward."—London Answers.

ASPIRIN

The whole world knows Aspirin as an effective antidote for pain. But it's just as important to know that there is only one genuine Bayer Aspirin. The name Bayer is on every tablet, and on the box. If it says Bayer, it's genuine; and if it doesn't, it is not! Headaches are dispelled by Bayer Aspirin. So are colds, and the pain that goes with them; even neuralgia, neuritis, and rheumatism promptly relieved. Get Bayer—at any drugstore—with proven directions.

Physicians prescribe Bayer Aspirin; it does NOT affect the heart

Bugs Succumb to Gas

German have found that prussic acid has proved an effective exterminator of the brass bug, an exceptionally destructive beetle, which is able to bore through metal. The appearance of the insect in Heidelberg caused alarm, as previous attempts to exterminate it had failed. The houses invaded by the pest were gassed for two weeks, and at the end of that time thousands of the beetles were dead.

Where Husbands Can Shop

"Blushless" shopping for men has now been established by a Detroit department store, which has a "men's corner," where when he wants a present for her he can be painlessly initiated into the mysteries of step-ins, fancy garters, silks, satins, brocades, etc. Here he is made to feel he is in a masculine atmosphere, despite the femininity of the goods and the judicious salesladies who obtain the customer's confidence and then sell him exactly what he needs, greatly to the benefit of his wife, mother, betrothed, or niece, cousins and aunts.—Capper's Weekly.

Rejoiced Because
Stubborn Coughs
Disappeared Suddenly

If you, too, have a cough that hangs on and on, gives you nights of restlessness and days of torment you can get rid of it easily.

A real cough medicine, a standard of physicians, that acts in two ways at the same time will stop it or money refunded. It is called Adamson's Balsam.

Ingredients known to science as the best will act at once. They stop inflammation, break up the irritating phlegm, relax throat muscles, and of course your cough has to stop. Other curative elements go into the system and attack the germs in the infected membrane and in a day or two your cough and danger of weakness or serious trouble are gone.

Adamson's Balsam, for this reason, is recommended for the worst kind of stubborn coughs and for these it rarely fails. You should not cough another day. So why not try it. Will not upset the stomach and contains no dangerous drugs, dope or chloroform. Wonderful for children. You can say, "goodbye cough" if you'll get Adamson's Balsam now. Any good druggist has it. TIMES
WE TEST SOCONY
GASOLINE AND
MOTOR OIL

WE could tell you a great many technical details about Socony Gasoline and Motor Oil. They would not interest you.

The important facts are these:

A product is just as good as, and no better than, the Company that makes it.

Our Company has been refining oil for fifty-four years. We produce our own crude. We test our product 13 times between the time when it comes out of the ground and the time when it is put into your car.

Almost every invention for improving gasoline and oil is offered to us first. And whenever it is possible to make Socony Gasoline and Motor Oil better, they will be made better.

Meanwhile we know that you will prolong the life of your car if you standardize on Socony.

Do You Know the Socony Touring Service?

WHEN you are going somewhere, there is always the question of what road to take. That is exactly what the Socony Touring Service can tell you. They know road conditions and detours. And they know the best roads.

Write to them at 20 Broadway, New York City. Their services are at your disposal.
